REFERRAL REWARDS

$100

Per referral with proof of completion

Tell your referral to add your name and contact info when asked on the survey.

The Building Operator Certification® (BOC) Training Level I course is designed for building operators, engineers and maintenance staff. The virtual course teaches building operators to find practical low-cost and no-cost efficient solutions by working with existing systems. Independent research shows that **BOC operators consistently save money and energy in their facilities - up to $20,000 per year on average!**[1]

Do you already have experience as a building operator? The BOC Level II course prepares building operators to dive deeper into building performance with a focus on improving energy efficiency.

PROGRAM BENEFITS

- Builds the foundation needed for BOC Level II course
- Promotes career growth through complimentary professional credentials
- Provides professional competence in energy-efficient building operations
- Develops a standard for educational programs for building operations staff
